

Flashings

Corodek® Flashings

These products are manufactured 1200mm wide COLORBOND®, ZINCALUME® or Galvanised Steel, thus they can be any width below 1200mm. The standard flashings include roll top ridge, spear points, barge roll, valley gutter, corner moulds, end aprons and barge cappings.

These products have pre-determined bends and lengths. If you would like variations to these standard flashings, please contact us.

Standard, custom made, Corodek® Flashings have varying maximum lengths. Please contact us to check availability of longer lengths.
